

## GRAND ARMY MEMBERSHIP GROWING THIN

Organization Was Started Fifty-Six Years Ago by Small Crowd of Fighters

INDIANAPOLIS, Ind., Sept. 6.—Fifty-six years ago a small group of young men, veterans of the civil war, were banded together by Dr. Benjamin F. Stephenson of Decatur, Ill. After organizing the name Grand Army of the Republic.

Organization began April 6, 1866, and the first national encampment was held in Indianapolis beginning Nov. 20 of the same year. There are no authentic records to give the attendance at that meeting, out of which grew one of the most powerful and influential bodies ever welded together in the United States. It must have been small, however, for one of the first theaters in Indianapolis was used for the meeting place and it held only a few hundred persons.

Membership campaigns by the Grand Army of the Republic continued from year to year, but an official record of the membership is available only so far back as 1878, when it was given as 31,016. It was about this time that the men who had fought and won a great war began to make their presence felt in all matters pertaining to the arrangement of the country, and as a result the G. A. R. increased its membership strength by many thousands.

The crest of the strength of the organization was reached in 1889 and 1890, when 409,489 were reported in good standing. The peak was reached at that time, as figures given at the encampment the following year showed a loss of approximately two thousand.

Death has caused a great furrow in the ranks of the old soldiers yearly since that time, until at present there are fewer than 93,000 of the "boys in blue" left. What few remain, however, are planning, according to national officers, to have a goodly representation present at the fifty-sixth national encampment to be held at Des Moines Sept. 24 to 29.

### One Year of Republican Rule Shows Tremendous Savings

Reduction of Over Billion in Public Debt and Nearly Two Billions in Public Expenses—Congress Cuts Budget Requests.

U. S. REPRESENTATIVE WILL H. WOOD (INDIANA) MEMBER OF HOUSE COMMITTEE ON APPROPRIATIONS

President Harding took office on March 4, 1921. The first complete fiscal year of government business under his administration began on July 1, 1921, and closed on June 30, 1922. The Budget Bureau was created in June, 1921, practically simultaneously with the commencement of the fiscal year. The estimated expenditures for the fiscal year 1922 amounted to \$4,550,000,000. The operations of that fiscal year have just closed. By the application of pressure by the President, exerted through the Budget Bureau and with the cooperation of the heads of departments and other administrative officers, the ordinary expenditures for 1922 actually amounted to \$3,750,000,000, a reduction of \$800,000,000 from the figure submitted by the departments at the beginning of the fiscal year.

The first budget submitted in the calendar year of 1921 for this same fiscal year of \$4,550,000,000, thus successful efforts of the administration have been in holding down expenditures and conserving revenue. It is attested by the fact that instead of a deficit there was a surplus for the year of \$314,000,000.

The total public debt of the United States on June 30, 1921, one year ago was \$23,377,000,000. This sum had been reduced on June 30, 1922, to \$22,963,000,000, a reduction of \$414,000,000.

The policy of the administration has been a return to normal conditions in public expenditures. How well this has been accomplished is amply reflected by a glance at the expenditure figures of preceding years.

The Republican party gained control of the Congress in the elections of 1918 and came into power in Congress on March 4, 1919.

During the period the administration was Democratic and the Congress was Republican, requests in the Executive branch for appropriations were reduced by the Republican Congress by nearly \$400,000,000.

Appropriations are the yard stick of expenditures. The entire record of the administration shows that the people of the United States have just reason to be proud of the financial record of this administration. While other countries are struggling with huge deficits in their budgets and are burdened with enormous taxes and staggering public debt, the United States has shown a surplus for the fiscal year just closed and at the same time accomplished a most significant reduction in its public debt.

## INDUSTRY OF COTTON SPINNING GROWING

TOKIO, Sept. 5.—According to investigations carried out by the department of agriculture and commerce, the cotton spinning industry in China has been making rapid progress in recent years. At present there are 69 spinning mills with 1,870,000 spindles and 10,500 weaving looms working. The annual output of the spinning mills in China is estimated at 800,000 to 1,000,000 bales of yarn and 3,200,000 yards of cotton fabrics. Besides these 109 factories are now in course of construction, and when they are completed 3,200,000 additional spindles and 16,000 looms will be working. China's producing capacity of cotton will thus be increased to something like 1,700,000 bales and that of cotton fabrics to 3,500,000 yards in the course of a year or two. At present 31 spinning mills in China are operated by Japanese and 109 by Chinese.
